Git-based Task Evidence

Probationary Period 1 - ENT Intelligent System

Repository	github.com/MagaBitex64/ent-intelligent-system
Tagged version	prob-period-1 - commit 7d20b4b
Team	Сәрсенбек Еркебұлан Бақтығалиұлы; Ихтияр Мағжан Талғатұлы (SE-2428)
YouTrack project	ENT Intelligent System (EIS) - 12 tracked issues

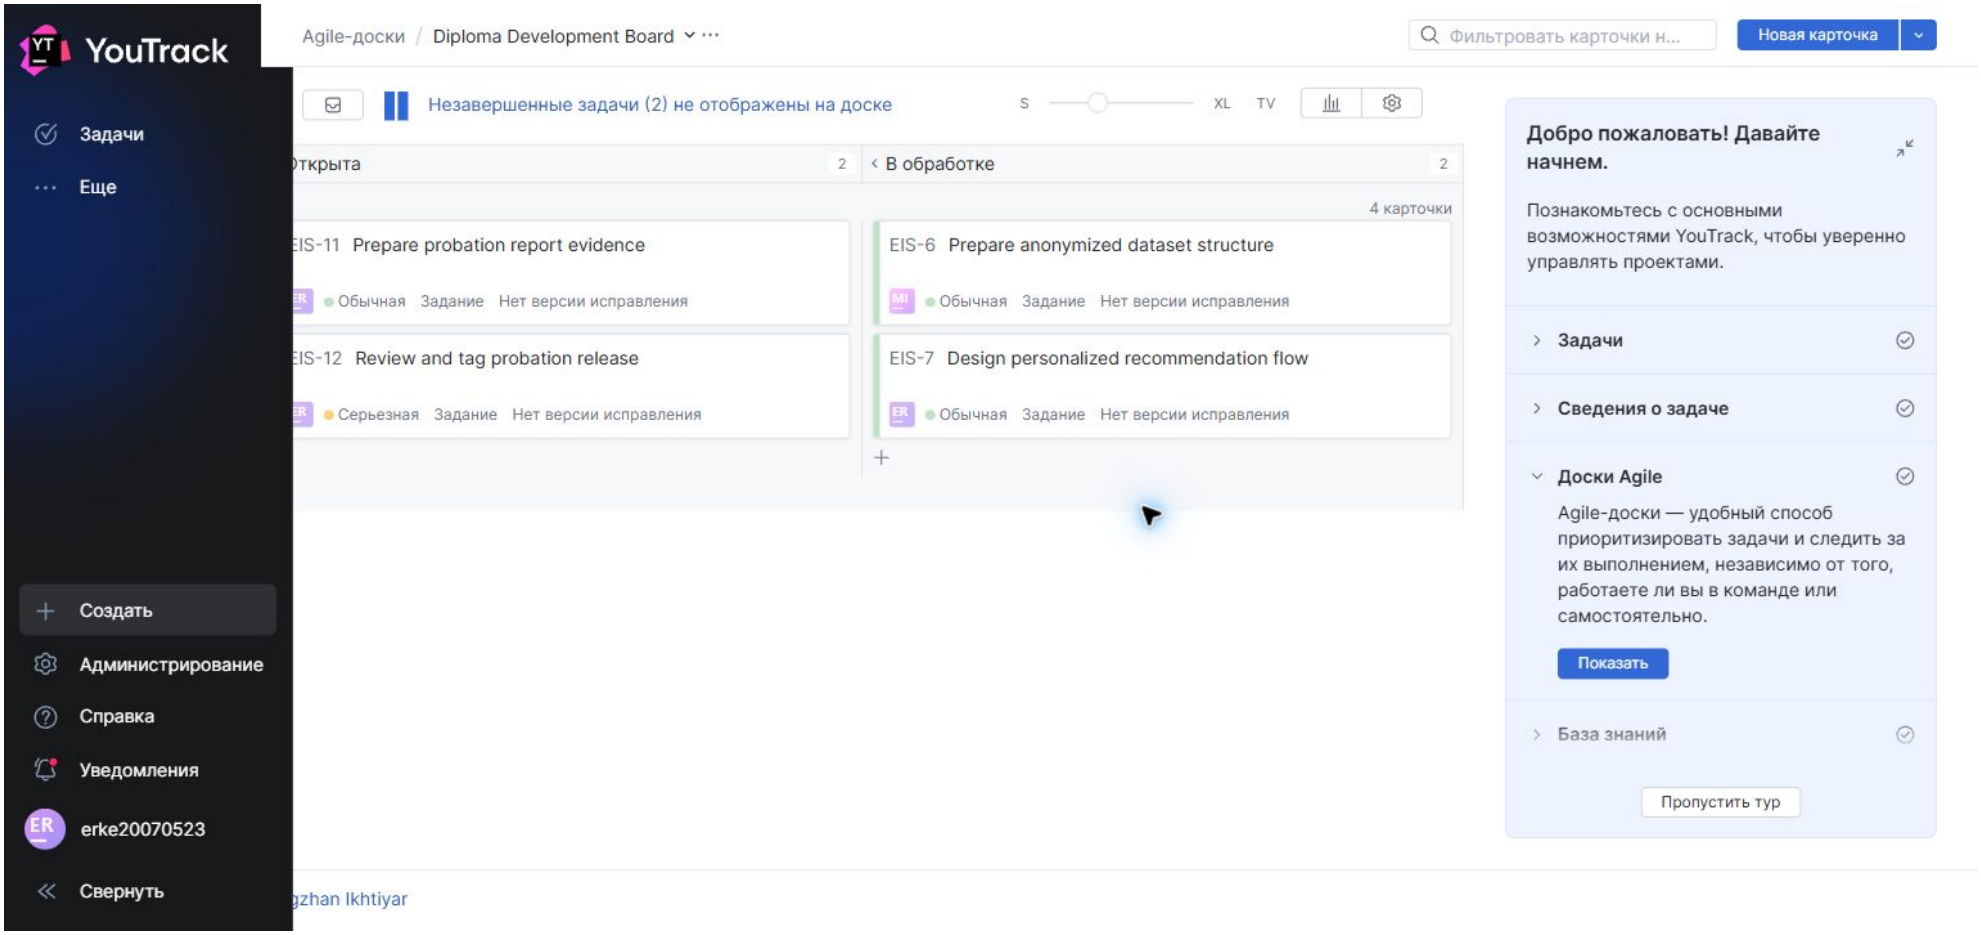

This report combines the live YouTrack project with immutable Git evidence. It provides the board overview, issue IDs, assignees, priorities, current statuses and links to corresponding repository deliverables. Deadlines were not configured in the current YouTrack issues, so the report states this explicitly rather than inventing dates. All referenced commits are contained in the repository version tagged prob-period-1.

Status summary

Tracked issues	12	**Current state**	6 Done; 2 Review; 2 In Progress; 2 Open
Stage outcome	Functional LMS and trial UNT platform prepared for pilot deployment	**Next milestone**	AI prediction and personalized recommendations

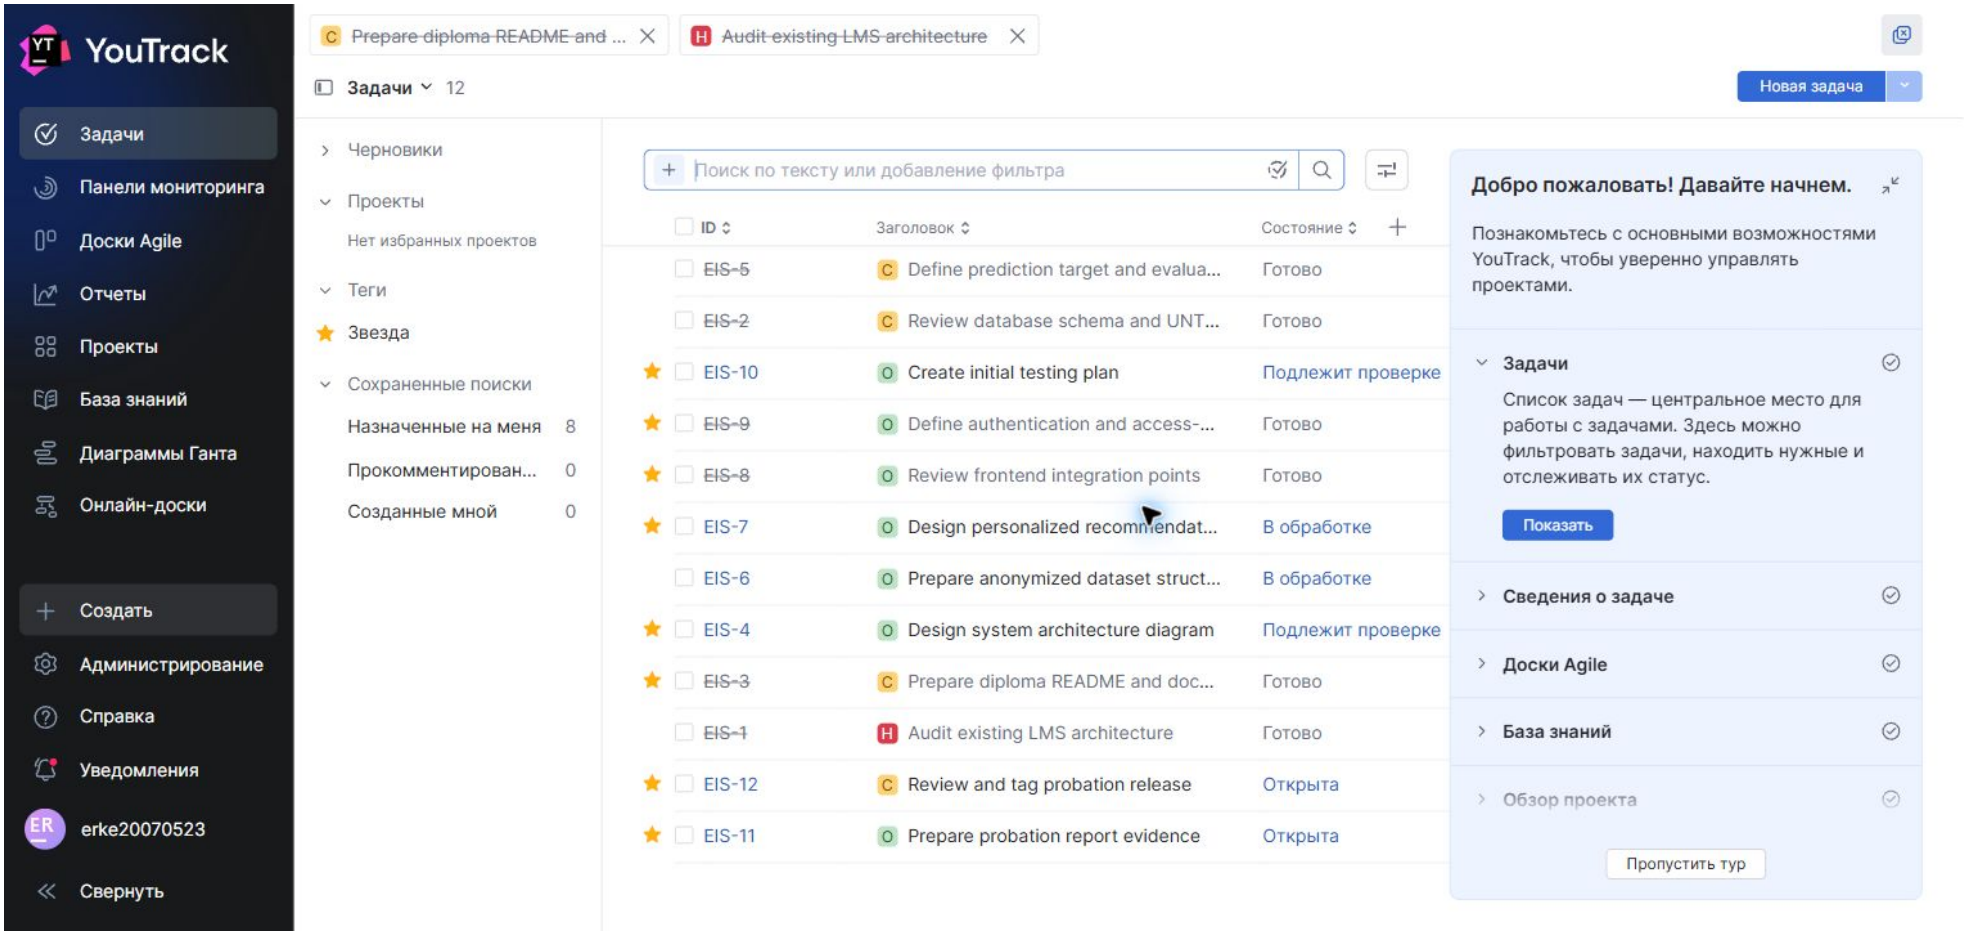

YouTrack Agile Board

Live board snapshot: 2 Open issues and 2 In Progress issues.

YouTrack Issue List

Overview of all 12 issues in the ENT Intelligent System project.

Task Register

ID	Task	Assignee	Priority	Status	Deadline	Evidence
EIS-1	Audit existing LMS architecture	Ихтияр М.	Urgent	Done	Not set	README / audit
EIS-2	Review database schema and UNT attempts	Ихтияр М.	Major	Done	Not set	DB and ENT review
EIS-3	Prepare diploma README and documentation	Сәрсенбек Е.	Major	Done	Not set	ada4cbf / 7d20b4b
EIS-4	Design system architecture diagram	Сәрсенбек Е.	Normal	Review	Not set	Documentation
EIS-5	Define prediction target and evaluation metrics	Ихтияр М.	Major	Done	Not set	c19b83d
EIS-6	Prepare anonymized dataset structure	Ихтияр М.	Normal	In Progress	Not set	ML design
EIS-7	Design personalized recommendation flow	Сәрсенбек Е.	Normal	In Progress	Not set	Next stage
EIS-8	Review frontend integration points	Сәрсенбек Е.	Normal	Done	Not set	Frontend review
EIS-9	Define authentication and access-control tests	Сәрсенбек Е.	Normal	Done	Not set	Tests / audit
EIS-10	Create initial testing plan	Сәрсенбек Е.	Normal	Review	Not set	Testing plan
EIS-11	Prepare probation report evidence	Сәрсенбек Е.	Normal	Open	Not set	This report
EIS-12	Review and tag probation release	Сәрсенбек Е.	Major	Open	Not set	prob-period-1

YouTrack task links use: https://ent-system.youtrack.cloud/issue/<ID>. Git evidence links are listed on the following pages.

Completed Task Evidence

EIS-5 - Define prediction target and evaluation metrics

Assignee	Ихтияр Мағжан Талғатұлы	**Priority**	Major	**Deadline**	Not configured in YouTrack
Expected outcome	Define the predicted UNT score target, input features, validation strategy and objective evaluation metrics for the diploma AI module.				
Acceptance criteria	The design must specify anonymized input data, prevent target leakage, include a baseline, define MAE/RMSE/R^2, and explain how predictions will feed student recommendations.				
Delivered result	The ML design document now defines the result-prediction objective, dataset structure, candidate models, evaluation metrics and recommendation integration plan. YouTrack status: Done.				

YouTrack issue: https://ent-system.youtrack.cloud/issue/EIS-5/Define-prediction-target-and-evaluation-metrics

Corresponding commit: https://github.com/MagaBitex64/ent-intelligent-system/commit/c19b83d

EIS-3 - Prepare diploma README and documentation

Assignee	Сәрсенбек Еркебұлан Бақтығалиұлы	**Priority**	Major	**Deadline**	Not configured in YouTrack
Expected outcome	Prepare a clear repository README and diploma-stage documentation matching the intelligent UNT prediction and recommendation topic.				
Acceptance criteria	The repository must explain the product purpose, architecture and launch context; the diploma scope must define novelty, roles, current status, limitations and next steps; links must be accessible from the tagged version.				
Delivered result	README and diploma-scope documentation were completed and revised in the new repository. YouTrack status: Done.				

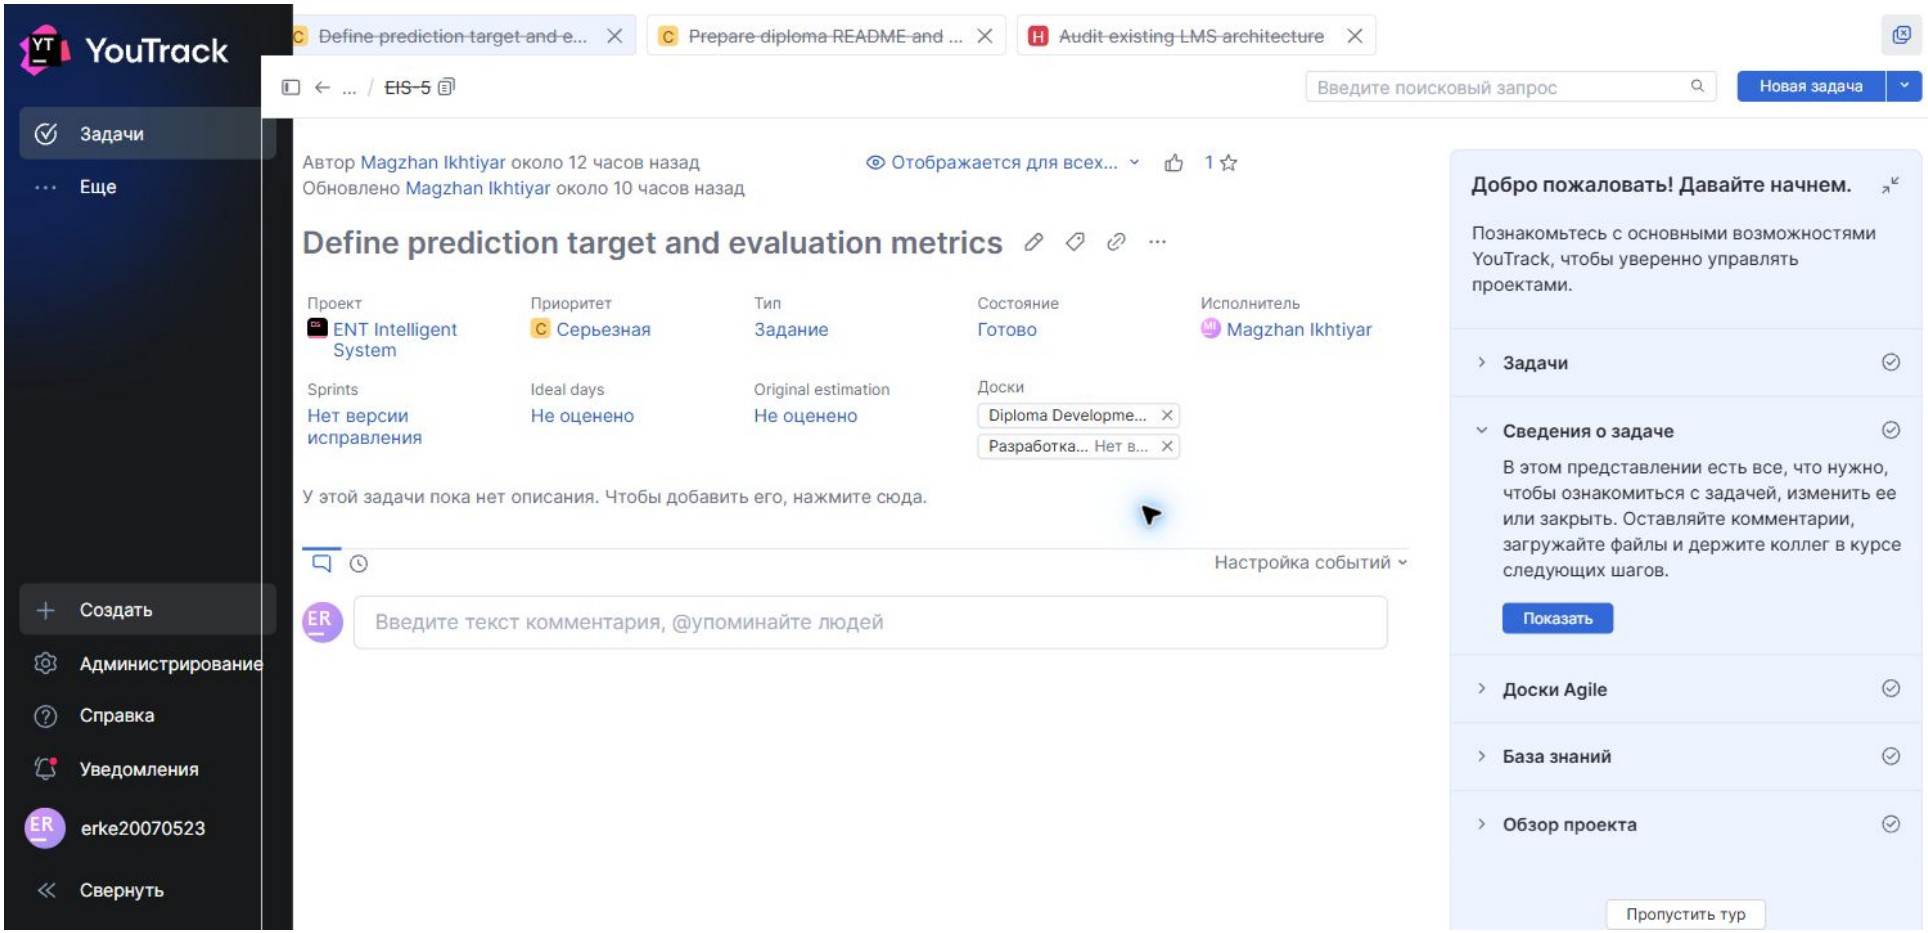

YouTrack issue: https://ent-system.youtrack.cloud/issue/EIS-3/Prepare-diploma-README-and-documentation

README revision: https://github.com/MagaBitex64/ent-intelligent-system/commit/ada4cbf

Final documentation revision: https://github.com/MagaBitex64/ent-intelligent-system/commit/7d20b4b

Verification note: EIS-1 through EIS-12 are real YouTrack issue IDs. Every Git evidence URL points to the new repository and resolves to a commit included in the prob-period-1 tag. The issue descriptions and deadlines are currently empty in YouTrack; therefore expected outcomes and acceptance criteria above are reconstructed from the delivered repository artifacts and are explicitly presented as report evidence, not as pre-existing issue descriptions.
